THE UNIVERSITY OF CHICAGO PRESS

18

1. The first part of the document is a letter from the President of the United States to the Congress, dated January 1, 1801. It is a very short letter, and it is the only one of its kind in the collection. It is a letter of introduction, and it is the only one of its kind in the collection.

WHO NEVER HAS FUN? POSSIBILITIES

Who gets the blame when prices rise?
The merchant.
Who profits—in the public's eyes?
The merchant.
And yet, who protests each advance,
And at each price boost looks aghast
As a most serious circumstance?
The merchant.
Who takes the loss when prices fall?
The merchant.
Who is the biggest goat of all?
The merchant.
Who gets his shelves full at the peak
Of goods that drop within the week?
Who marks them down without a
squeak?
The merchant.
Who is the public blaming now?
The merchant.
Who bears the brunt of all this row?
The merchant.
Who tries, in spite of meagre sales
To heed the public's frequent wails
For lower prices—and who fails?
The merchant.
Who donates money to your town?
The merchant.
Who never turns committees down?
The merchant.
Whom does the Ladies Aid first lend?
The merchant.
Who coughs up for the local band?
Should he refuse, then who is panned?
The merchant.

OF WIRELESS

The Toronto Star Weekly referring to wireless, says:
"The difficulty of collecting tolls would, we fear, be insurmountable, and this would necessitate public ownership of the sending service, and the giving of concerts under provincial or even national auspices for the benefit of the people everywhere. One critic suggests that the news may be so rapidly transmitted that in time the daily newspaper may disappear—but of this we are not apprehensive. News after all, is barely more important than the elucidation of it which the newspapers give. There is, however, one grave cause for alarm in connection with this invention. Let us suppose there is a receiving or listening machine in every house in Toronto or Ontario, and that affixed to each instrument is a phonograph appliance so that the volume of sound fills the house. What is to prevent the man who wants to sell a patent medicine filling the air with a loud talk about his medicine, or a politician turning loose in the city a tirade against his political opponents? Are we to look forward to a time when cranks vex the life out of the whole population in this

manner? Is it to be so that a man cannot turn on his machine without hearing a "record" that he doesn't want? This way, do. The listening machine of the future will have to possess every facility enabling it to select and listen to that in which its owner is interested, so that he will not be the victim of the propagandist." The Star need not be alarmed. The man with a wireless instrument in his house doesn't need to listen to anything he doesn't want to. He can "tune out" all instruments but the one that interests him, though amateurs do cause more or less trouble with their vagaries, and will doubtless have to be regulated. Already the West-Ingush company, which sends out many fine concerts, makes use of the opportunity also to advertise the electrical products of the firm's factories. Another firm in the States plays the latest gramophone records and then tells where they can be bought. The possibilities of this new form of advertising are infinite. But it must be made of sufficient interest to be worth listening to, or the audience will simply cut it out. They don't have to be bored. Still it is probable that the advent of wireless will necessitate a new set of laws, which will have to be of international character, as wireless recognizes no boundaries. Last week

EMPRESS RAMS HER PROW FIFTEEN FEET INTO CONCRETE PIER

Halifax, Jan. 30.—Marking her arrival here after her maiden voyage from Southampton, England, the Canadian Pacific steamship Empress of Scotland, yesterday ran her prow fifteen feet into the concrete dock of the immigration pier, which is erected on concrete piling. A large crowd was on the pier and there was a scurry for safety when the sharp prow of the big liner crashed into the pier. Nobody was hurt and beyond denting her bow plates, the ship apparently sustained no damage.

a service, including hymns, prayers and sermons, was sent out from New York. Doubtless before another general election comes round it will be possible for our political leaders to do most of their speaking from Ottawa, instead of rushing all over the country, as Mr. Meighen, Mr. King and Mr. Crerar did in the recent election. They will number their audiences by tens of thousands, instead of by thousands, only, there being no limit to the number who can "get in to hear them."

MILLET

Mr. J. H. Parker, Jr., left on Monday for Los Angeles, Cal., on a business trip.

Millet, Jan. 30.—The dance of the year will take place at Playon's Hotel on Friday, February 10. This dance will be a winner as it is under the auspices of the Women's Institute. When they put on a dance it is one that everyone will talk about, and the prospects are id go to that very worthy object, the Rest Room.

Mr. and Mrs. Halliday entertained a large number of the Millet young people on Friday last at their farm. Two sleigh loads of people left Millet to enjoy their hosts' hospitality. Everybody danced and a fine evening's entertainment was enjoyed by all—should we say part of the next morning, as it was close on five o'clock before the sleighs and their occupants arrived back at the go-ahead village of Millet. We must not forget to mention the very fine Scotch dances that were indulged in. Miss Calderwood, Mrs. Halliday, and Ian Halliday gave quite a few highland dances. Mr. Halliday, as, surprised all as to his dancing prowess. Holmes Eastwood gave two very fine recitations which were well received. The feature of the evening was the new dance, the

Bunny Hug, given by W. Rowlands and A. Halliday. After the singing of Auld Lang Syne, the party left for home.

Playon Lake we understand, is to have two syndicates this coming summer, who are going to run a line of motor and sailing boats. Passenger automobiles will meet all trains to take out the campers.

Prod Playon was at Edmonton for the weekend where he was attending a meeting of the Mutual Oil & Development company.

The flousters shortly are to build a gymnasium. Everyone around Millet is getting the pep that one of these days will make a town.

Mr. Alex Gault, of the department of agriculture, will give a talk on Agricultural Fairs in Playon's hall on Friday evening of this week, February 2nd, at 8 o'clock. Lantern slide pictures will be shown in connection with the address. Lunch will be served at the close. Be sure to come out to hear this address as it will be a treat.

The Millet Women's Institute will hold their next regular meeting at the home of Mrs. Arnold on Wednesday, February 3rd. In answer to roll-call—your favorite household motto.

When you want anything printed, send your order to The Times!

There are no better known golf courses in the Dominion than those at Victoria on Vancouver Island, so doubt due to the fact that the game is played there every day of the year. One of the delights of the winter visit to the Coast is to enjoy again the favored summer sport. It will, therefore, come as a pleasant announcement to know that the Canadian Pacific Railway has completed arrangements whereby guests of the Empress Hotel will be accorded playing privileges on the excellent 18 hole Colwood course.

Listen!

Have you heard about Peps? Peps is a scientific preparation put up in pillule form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.

Peps contains certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence healing.

SAGEBRUSH MAVERICKS

(Continued from page 2)

"partly holds forth," he said. "Maybe if old man Pettigrew can't talk beef, we can bark with him on his own ground."

"He must have something human about him if he pretends to be a bulldog," said Mr. Hostler. "Poor old Hard Coal. Well, I guess we might as well hear this Pettigrew in his kennel. Something may come of it."

"Their method of bawling gave them when they saw the extensive scale of the party." The building in which it was held was enormous, and the number of spectators and exhibitors made a larger crowd than the cattlemen had ever ventured into. Along the side and the centre of the great hall were a succession of benches divided into little stalls, and in each a dog was chained. Hounds, spaniels, terriers, setters, bulldogs, pointers, retrievers, pointers, and all the rest of the canine family barked, growled, barked, whined and whimpered in a deafening chorus.

"They must have rounded up all the dogs in the world including Coastland dogs," exclaimed Hostler. He barked a man who wore a long white duster, chambray gloves and a steward's badge. "Say, friend, can you direct us to Mr. Pettigrew—Alston S. Pettigrew?"

"Griffons Bravollos," ring No. 3," replied the man over his shoulder.

"I reckon that first part was one of the dog language Pettigrew's clerk told us about," said Lem. "However, the rest sounded like real words."

His dist of enquiry they made their way to the centre of the hall where a good-sized area was roped off into four rings. Dogs of various degrees were being judged in several of them but in ring No. 3, the activities had just ended. A spectator obligingly pointed out Mr. Pettigrew to the west corner, and they followed their way up to him and announced themselves.

Mr. Pettigrew, a plump, grey-haired man, wearing an official's badge, remembered Hostler at once, and shook hands with them in a friendly way, but it was clear that, as his clerk had intimated, he did not intend to let business interfere with pleasure.

His goodlooking daughter, Mary Pettigrew, smoothed over the pause that

"What's that?" asked Mr. Pettigrew.

"Lem was saying they looked much like our dogs," said Hostler. "Chin men don't move alike for a fact."

"I thought you said something about hounds. So they're Altdorfs, after all? Well, well," Mr. Pettigrew was now much interested, and his manner became informal and hearty. "You must tell me about them. I am curious to know how this grandest of all the terriers, as it is called, came to be so useful in the cattle range."

"The new king lay on a golden straw, and the three walls of his stall hung with blue first prize cards and silk ribbons, white special prize ribbons, the red-white-and-blue streamered to the winners' class, and the great gold lettered certificate for the best of his breed either sex. But the king appeared as indifferent to the insignia of royalty as to the untended basin of food lying near him. His ears drooped at a listless angle, and his dark terrier eyes seemed to look with listless remissness through and beyond his circle of courtiers, to a happier if less honored state."

"There, what do you think of?" Mr. Pettigrew began, but a startling change in the faces of his two friends made him stop.

A tie of red had risen under Hostler's nose, and threatened to rush through his skin. Lem was a little

BANK LOANS IN ALBERTA ABOUT 120 MILLIONS

Calgary, Jan. 27.—The demand of farmers in Alberta that the provincial government cause to be secured a bank charter in accordance with the Federal Bank act, which would be met with such enthusiasm at the recent U.F.A. convention, is a general topic in financial circles in Calgary.

In discussing this matter, J. N. Kennedy, Alberta superintendent of the Merchants Bank, asked if the farmers realized the amount of outside capital loaned in the province by the banks. He estimated that the bank loans in the province were not less than 120 millions. Of that amount more than two thirds was advanced directly or indirectly to the farmers and ranchers of the province. He estimated the total bank deposits at not more than 50 millions, of which not more than one third was received from farmers and ranchers. The balance, say, 70 millions, represented the outside capital brought into the province by the banks to assist in the development of the province.

"The reason we are going to be a much bigger and bigger province," said Mr. Kennedy, "is that we cannot conceive of any arrangements as suitable for our requirements as the banks have. I believe it has been the Eastern deposits, which are in excess of loaning requirements there, flow westward as they are required as naturally and easily as the water in our rivers flow seaward. How could it be capital be secured? Presumably by the sale of debentures in the money markets of the world. This capital would cost 6 or 7 per cent more according to the supply and demand. It would mean reloaning at 10 per cent at least in order to break even."

"I am satisfied that the combined profits of the banks in Alberta today fall far short of 7 per cent on the actual capital brought into the province. An examination of bank loans in the province will show advances to farmers on a very liberal scale. During the past four years conditions have been such that most farmers have been unable to clean up their bank advances. I believe it has been the uniform policy of the banks to carry over whatever the farmer could not pay and advance new money to carry necessary operations."

"What more could be expected? What more would be wise in the interests of all?"

Mr. Kennedy added that if the farmers would find that Canada was blessed with the best banking system in the world and that the Canadian banks, practically without exception, were doing their best to serve the farmer, that he would be well advised to ask what the conditions of the western states where there are local banks.

"Investigation will show that our farmers are immeasurably better off than the farmers and business men of the east," he said.

107 KILLED WHEN LARGE AND NEW U.S. THEATRE COLLAPSES

Washington, Jan. 29.—One hundred and seven persons are known to have lost their lives in the collapse last night of the new and large theatre at Kalkreuther, a picture theatre, rescue workers, fighting a desperate battle through dark and daylight, have recovered that number tonight.

Reinforcement of daylight, names brought the final down from the official peak of 112 at which the toll of the catastrophe was placed last night. The toll of injured stood at 114 and it later rose to 117.

Caught beneath the falling beams which had been designed to act as tressers supports for the roof, scores were taken to hospitals suffering with broken limbs or severe internal injuries. Many were given immediate medical attention at improvised stations hastily erected near the scene of the disaster.

The Kalkreuth, one of the newest and largest of the capital's motion picture houses, was rated as one of the most exclusive, drawing its patronage from the northwest residential section, in the vicinity of upper Connecticut Avenue.

Family groups predominated in the audience which gathered last night to watch the showing of a ruffian comedy, and it was upon these that the roof, packed by tons of wet snow, descended with a whistling warning. In the entire audience but one person was found who had become aware of impending doom in time to reach an exit. A number of others worked their way to safety by scant openings in the wreckage.

PARKER, OF MILLET, STARTS A FUR FARM

A. H. Parker, of Alford, is another who has been attracted by the possibilities of fur farming, and has started in a very modest way with two pairs of foxes and red and silver foxes.

"Mr. Parker is not enthralled with high as pots by any means, as he says that they will smart at any person who goes near their cage, which consists of a wire enclosure, a wire-protected part at one end, but he sees that the venture ought to be a profitable one considering the rate of increase and the value of pelts.—Examiner.

SMITH DECLARED HE WAS ALARMED

SUDDEN TURN FOR THE WORST SERVED AS WARNING TO THIS WINNIPEG MAN

"My advice to anybody with stomach trouble is to take Tanlac. I have tried dieting, medicine and everything else but Tanlac is the only thing that ever helped me," said A. W. Smith, a well known tailor, living at 371 Arlington St., Winnipeg, Man.

"I had a chronic case of stomach trouble that had been giving me constant bother for two years or more. I had to be particular what I ate and there were many things I couldn't touch. At times I almost drank deathly sick and worst have the worst sort of pains in my stomach. I was subject to awful headaches that made me nervous and restless and I got to where I would lie awake in bed for hours hardly able to get a sleep at all. A few weeks ago I took a turn for the worse and that scared me and I took it as a warning."

"So I started on Tanlac as I had heard a lot about it, and had been thinking of trying it. And it just hit the spot and I felt an immediate relief. I stuck right with Tanlac and now I can't tell I ever had stomach trouble. My appetite is first class and nothing is eating me. The fact is I feel great and consider Tanlac in a class all by itself."

Tanlac is sold by leading druggists everywhere.

TRYING TO GET A RUSTLESS WHEAT

If Seager Wheeler, of Rathburn, Sask., succeeds in his experiments on which he is now working, the west will have a wheat which is immune from rust. This will be one of the many valuable discoveries he has made in conjunction with wheat, and the demand will have for this type will be greater than any other.

SHACKLETON DIED
ON BOARD 'QUEST'
THREE WEEKS AGO

Incense Altar, Jan. 29.—Story that three weeks passed between the death of Sir Ernest Shackleton, the British explorer, and its announcement to the world, made Sunday when the body arrived at Montevideo. The delay, says the Montevideo correspondent, was ascribed by Captain Huxley, who accompanied the body as due to a series of wireless mishaps. Sir Ernest died on board his ship the Quest, on which he was making another Antarctic voyage, while anchored off South Georgia, January 5. His body was taken to Montevideo on the first leg of the trip home aboard the Norwegian steamship Profo Cruel. Captain Huxley bore a death certificate made out at South Georgia island, reading:

"I, Alexander Macklin, certify to my knowledge and belief that the cause of death was atheroma in the arteries of the heart. Before death he had no complaint of an infectious or contagious disease."

The certificate was signed by Dr. Macklin as surgeon of the expedition. Captain Huxley told La Nación's correspondent that the Quest arrived at South Georgia island with her mate Quest did not inform the Falkland Islands with her other wireless set, Captain Huxley said it was not sufficient powerful. The wireless of the Profo Cruel was also out of order, health throughout the trip. The day

W. C. T. U.

The W.C.T.U. will hold a parlor meeting at the home of Mrs. A. A. Ellis on Tuesday evening, February 7th, to which all ladies and gentlemen, whether members or honorary members of the society or not are cordially invited. Rev. Pritchard will give a talk on government control of alcoholic liquors and tell how the system is working out in British Columbia. Prof. Alexander, of Tokio, will give an account of temperance progress in Japan. A solo by Mrs. Montgomery and a trio by Mrs. Walker, Poole and Montgomery, are among the musical numbers. Tea will be served, and the usual silver collection taken.

The weather during the week has been quite cold, the thermometer registering below zero every night.

A card party will be given by the Wetaskiwin local on Friday evening, February 7th, in the U.F.A. Block.

TOWN TOPICS

Dr. McColgan was at Edmonton this week on professional business.

The W.M.S. and Mission Band will hold a Valentine tea and bazaar on February 11th. Particulars later.

Miss Gladys Compton spent the weekend with friends at Edmonton, returning home Monday morning.

If you have anything to sell or if you want some article, make your wants known through The Times.

Oliver Roulstone left last week for Winnipeg and Chicago, where he is combining business with pleasure.

Criminal sittings of the supreme court will commence here on Monday, February 13th.

The monthly meeting of the Daughters of the Empire will be held at the home of Mrs. F. E. MacArthur, at 8 p.m. on Tuesday, the 7th inst., instead of on the date previously arranged.

Dr. Morley Young, recently appointed to the staff of the Lamont hospital, was a visitor this week with his sister, Mrs. Rev. Irwin, at the paragon.

J. E. Gullberg and the East Side Drug Store are exchanging business promises this week. The change will give Mr. Gullberg more room, and it is his intention to add a nice line of dry goods to his stock.

Mr. and Mrs. M. O. Nelson, Frank and the baby, left Monday afternoon for California. Mr. Nelson will return in about a month, but the others expect to remain there with relatives until next summer.

Everyone who make a purchase at the tea and sale of food and household goods to be held by the Altar Society at Mr. Murray's ice cream parlor, on Saturday, February 18th, from three to six o'clock, will receive a free valentine.

The regular meeting of the Hospital Aid Society will be held in the Ice Cream Parlor of the City Bakery, on Tuesday, February 7th, at 4 p.m. sharp. All members are requested to be present. Mrs. Plank and Mrs. Rodell will be hostesses for the afternoon.

Mr. and Mrs. J. P. Johnson are having what seems to be more than their share of sickness. Their five year old son has been in the Wetaskiwin hospital for about a month, first undergoing an operation for appendicitis, and while convalescing, contracting pneumonia. The youngest son was taken to the hospital in Edmonton last week, where he was operated upon for tonsillitis. Both patients are reported to be doing nicely at time of going to press.

COUNTRY PAYS MORE
TAXES TO PROVINCE
THAN THE BIG CITIES

Edmonton, Jan. 31.—Prolonging figures to show that the rural portions of the province of Alberta paid a higher rate per capita in taxes to the government than the urban centres, Premier Greenfield, Monday morning, told a large delegation representing the cities of the province that the government, while sympathetic with the situation in the cities, also had its problems of revenue raising, and wished the cities to give consideration to that side, too. "I think it would be unwise for the government to meddle very much this session with the taxation problem. There should be a conference of all concerned, to settle once and for all the spheres of taxation to be accepted by the municipal, provincial and federal government."

The delegation appeared satisfied by the premier's assurance that such a conference should be held within the coming year.

It was considerable of a job to the delegation to receive Premier Greenfield's statement that the urban municipalities were paying but \$2.23 per head, all taxes included, to the provincial government, while the rural population was paying \$3.30 per head. The premier said these figures might have to be revised, but he believed the revision would increase the proportion being paid by rural residents.

"If the government is to share up these revenues with the cities, where will we get our revenue?" asked the premier.

"There is no hope for doing away with the supplementary revenue tax. The province has simply got to have the money. Can you suggest any other means whereby we can raise revenue?"

Mayer Adams: "Yes, we could suggest ways, but we think that it is a matter for the government to decide."

"The cities are suffering from over expenditure in recent days; so is the province," said the premier. "We have both got to climb out. We lost our common sense for five years, now we have to pay for it."

The cities presented a long memorandum, demanding a share of the rate and amusement taxes and more of the police cost fines.

Attorney General Irvine, showed that Edmonton actually had paid \$2,500 by the government over and above the cost of the police cost. The total revenues of the government from the Edmonton cost had been \$37,123.49 and the expenses \$16,124. There had also been refunded to the city \$26,400 in liquor fines, so that the city was ahead over \$5,000.

The increase in B. C. population, as shown in census returns, will also mean increased representation in the house of commons following the next redistribution.

Following his expulsion from the U.F.A. for contesting election of D. W. Warner, in federal election, H. R. French states that he will take court proceedings to suit him in securing damages from the U.F.A. local branch of the organization for alleged damaging resolution.

The province of Manitoba wins its appeal in the famous Kelly case before the privy council, and the contractors, Thomas Kelly & Sons, who built a portion of the provincial legislative buildings, will be obliged to return \$1,600,000 for inferior construction; the government will seize property of the defendants.

New York, Jan. 31.—Influenza cases in this city have reached epidemic proportions. Health Commissioner G. Copeland announced tonight in making public a report showing that 315 cases of the disease and 283 cases of pneumonia had been reported during the past 24 hours. There were 42 deaths from the two causes.

The supreme court on last Friday morning dismissed the appeal of Alex Shandro, unseated member for the Whitford constituency in the last provincial elections, and the Whitford seat will now be open for contest. Shandro was unseated following an action by A. M. Boutillier, of Soda Lake, on behalf of Mike Chornobus whose nomination papers were declared null and void by the returning officer, owing to a difference in the spelling of the name, a "z" being used in place of the "s" on the nomination paper, and a few other alleged irregularities being held against it. Shandro was announced elected by acclamation.

The airship is the invention of Signer Vaucan. His announcement has caused immense excitement in aviation circles in Europe. The inventor claims that it will not only revolutionize aerial warfare but air transportation as well.

Instead of using inflammable gas to make the airship rise, Vaucan has created a vacuum inside the envelope by means of pumps worked by engines.

Your label should read Jan. 22.

TOWN TOPICS

The Women's Auxiliary of Immanuel church will hold a card party in the Parish Hall on Friday evening, Feb. 7th.

J. E. Fraser, secretary treasurer of the city, who was taken down with lumbago last week, is improving, and hopes to be able to resume his work in a few days.

The ice harvest in the city is now in full swing, and a very good quality of ice is being stored for next summer. The most of the ice is being hauled from Sandy Lake.

T. C. Rubbra's rink returned from the Edmonton bonspiel on Thursday evening. They won several games but were unable to reach the jewelry competitions.
